

I support media diversity

Dear Mr. Copps and Mr. Adelstein,

Thank you for working to keep the media from being further concentrated. It is so sad to see our freedoms being curtailed so a few can benefit monetarily and in power. It has been very disappointing that there has been so little coverage of such an important matter. I know you have tried to bring this matter before the public and have attended many public meetings. Why must the other FCC members hid behind closed doors? They can't be proud of what they are trying to do.

At the end of the day, as the popular cliché goes, we find the accomplishments that mean the most to us are those that we have made to benefit everyone and not just ourselves or a few.

Thanking you for reading my thoughts and working so hard to keep the media from being concentrated in the hands of a few.

Respectfully,

Mary Pritchard
